

PROJECT SOLAR PANDEMIC PROJECT

TEAM:
ANDREA NDZEKENI

ABOUT

THIS PROJECT IS ABOUT A APP THAT GUIDES THROUGH
TIPS ON HOW TO MAKE A SOLAR BATTERY LAST LONGER BY AVOID DEEP DISCHARGES BY RECHARGING THE
BATTERY BEFORE IT REACHES LOW CHARGE LEVELS. SET BATTERY CHARGE THRESHOLDS WITHIN
RECOMMENDED LIMITS. CONSIDER ADVANCED BATTERY MANAGEMENT SYSTEMS THAT AUTOMATE DOD
MANAGEMENT

PROJECT PREVIEW:

HOW CAN I IMPROVE MY SOLAR BATTERY EFFICIENCY?

1. **OPTIMIZE YOUR SOLAR PANEL PLACEMENT: ...**
2. **KEEP YOUR SOLAR PANELS CLEAN: ...**
3. **MONITOR AND MANAGE ENERGY CONSUMPTION: ...**
4. **UTILIZE TIME-OF-USE TARIFFS: ...**
5. **INSTALL A SMART ENERGY MANAGEMENT SYSTEM: ...**
6. **OPT FOR ENERGY-EFFICIENT APPLIANCES: ...**
7. **MINIMIZE STANDBY POWER CONSUMPTION**

JAVASCRIPT

VERCEL

WHAT HAVE I LEARNED SUCCESES:

- SUCCESSFULLY
REQUESTED
PERMISSION TO
ACCESS MY USER
NAME
- THE SYSTEM OF THE
PROGRAM WAS ABLE TO
DETECT NEW USERS
- SITE WAS RESPONSIVE
ON A PC AND SMART
PHONE

FAILURES:

- THE PROGRAM FAILED
TO GIVE THE EXACT
TIME NEW USER WERE
RECEIVED
-
- THE SITE WAS NOT
RESPONSIVE AT CERTAIN
AREAS
- THE APP COULD NOT
HANDLE A NUMBER OF
1000 PEOPLE USING IT
AT THE SAME TIME
RESULTING IT TO CRASH
